

CHILDREN'S DAY REPORT 2022

On 14th November 2022, St. Joseph's School Abu Dhabi commemorated Children's Day.

The day began with a prayer service held by the Sisters and several other teaching and non-teaching staff. The staff recited verses from their respective Holy books along with their translations and interpretations.

The event, hosted by Tr. Sandra, began with a visit from the fairy godmother. Her duty was to ensure that all the students were having a good time. She then invited the first performance on stage, which was a play put up by the Teachers of Grades 11 and 12. Their comical play ended with a thought-provoking message 'Aim high but never let your guard down'.

The Teachers of grades 9 and 10 captivated the students with their dance as well as their well-coordinated outfits.

The Teachers of grades 7 and 8 planned a medley of old-school songs to remind us that we can do anything if we believe in ourselves.

The Teachers of grade 1 to 6, took the students on a magic carpet ride to several places including the UAE and India. Several dances were included to enhance the journey including Arab, Indian and Cowboy style dances.

The non-teaching staff shocked the students and teachers alike with their jaw-dropping dancing and singing.

As the grand finale, the Sisters once again did not fail to astonish the audience with their dance performance.

Prior to the gift giving, the students were given the opportunity to dance on stage. They enthusiastically danced their hearts out that afternoon. Finally, the moment the students had been eagerly waiting for- the gifts!

Every student was given a pack of 5 face towels as well as a bar of chocolate. Once again, the school had reminded us of the importance of sustainability. The excited students then went back to their respective classes with a huge smile on their faces.

The Children's day celebration 2022 will forever be remembered by the students of St. Joseph's School and they will be forever grateful to their teachers for taking the time and effort to make them feel special and put a smile on their faces.
